IOT: Introduction to Python programming

Tue Nov 7, 2023
rhcudmore@ucdavis.edu

Roadmap for the rest of class

Week 7

  Tue Nov 7 - Intro to Python

  Thur Nov 9 - Writing code on an Arduino Nano

Week 8

  Tue Nov 14 - IOT Lecture - **Guest** Lecture

  Thur Nov 16 - IOT Lecture - Zoom

Week 9

  Tue Nov 21 - IOT Lecture

  Thur Nov 23 - Thanksgiving - NO CLASS

Week 10

  Tue Nov 28 - More building or lecture ???

  Thur Nov 30 - More building or lecture ???

Week 11

  Tue Dec 5 - Oral Presentations

  Thur Dec 7 - Oral presentations

I am out of town during week 8

Will have more details in class on Thur Nov 9

and will post to canvas with details

Plan for today Tue Nov 7th

1) I will go over some basics of programming in Python

2) We will use a browser to look at some of the code and play with it

https://cudmore.github.io/iot-fall-2023/

For next class, I want some people to install Microsoft Visual Studio Code and configure it for use with an Arduino Nano (see online documentation)

That QR code points to our online documentation
** Always look to canvas for class announcements!!!
